## Overview of the Philippine Livestock and Poultry Subsectors

Mandated to promote agricultural development in the Philippines, the Department of Agriculture (DA) has been dedicating its resources towards the boosting of local food production, the empowerment of Filipino farmers and fisherfolk, and the attainment of food security nationwide. In 2023, the Philippine Statistics Authority (PSA) reported that the country's Gross Domestic Product (GDP) was at P24.32 trillion at current prices, with the agriculture sector displaying a 1.2 percent growth rate and contributing 8.6 percent to the total national GDP.

Playing a crucial role in agricultural and economic development is the Philippine livestock and poultry industry. Faced with the devastating impacts of the COVID-19 pandemic, outbreak of animal diseases, international conflicts, inflation, and agricultural smuggling in recent years, the industry has been focusing its efforts towards recovery.

Now garnering a total of 2,998,731 livestock and poultry raisers as per the June 30, 2024 data of the DA-Registry System for Basic Sectors in Agriculture (RSBSA), the Department—through the National Livestock Program (NLP) and its livestock attached offices—crafts and implements research-based and data-driven programs and strategies to further develop, promote, and open more opportunities for the Philippine livestock and poultry industry.

## DA-NATIONAL LIVESTOCK PROGRAM (NLP)

By virtue of the Presidential Decree No. 914, series of 1976, the Livestock Development Council (LDC) was established as the DA's policy-making body for the livestock and poultry industries. After a series of reorganizations, the National Livestock Program (NLP) rose to become one of the DA's banner programs that is committed to pursue the development of the livestock and poultry subsectors in the Philippines.

The DA-NLP is headed by its Program Director and also reports to the Office of the DA Undersecretary for Livestock. It currently comprises five DA livestock attached agencies, namely, the Bureau of Animal Industry (BAI), the National Dairy Authority (NDA), the National Meat Inspection Service (NMIS), the Philippine Carabao Center (PCC), and the Agricultural Training Institute (ATI).

## VISION

A meat-, egg-, and milk-secured and resilient Philippines anchored on a vibrant, robust, and globally competitive livestock and poultry industry and prosperous farmers.

## MISSION

The National Livestock Program (NLP), a cohesive group of government agencies and field offices, shall serve as the driver and catalyst for the accelerated growth and sustainable development of the livestock and poultry subsectors through the formulation of comprehensive policy, preparation of plans, and implementation of programs, projects, and activities in consultation and partnership with the private sector and other stakeholders along the value chain.

## PROGRAMS AND SERVICES

**Integrated National Swine Production Initiatives for Recovery and Expansion (INSPIRE) Program:** focuses on the recovery and repopulation of the Philippine hog industry—especially in the time of the African Swine Fever (ASF) outbreak—through calibrated repopulation, establishment of production and multiplier farms and Artificial Insemination (AI) sa Barangay Centers, enhanced insurance program, and access to credit facilities and loan programs.

**Livestock Economic Enterprise Development (LEED):** distributes multiplier farm modules and provides technical and production support to clustered backyard and smallholder farmers in order to improve their production, encourage them to value-add, and help elevate them into enterprise level.

**National Animal Genetic Resources Improvement Program:** ensures the effective conduct of the Unified Artificial Insemination Program (UNAIP) and the Philippine Native Animal Development (PNAD) to improve the country's genetic resources as well as the performance, adaptability, and productivity of the Philippine livestock and poultry sectors.

**Development and Rehabilitation/Upgrading of Government Stock Farms:** supports the operation and maintenance of livestock farms and stations under the care of the DA-Regional Field Offices (RFOs) and the DA-Bureau of Animal Industry (BAI), which will serve as nucleus or multiplier farms that produce animals for distribution and research purposes.

**Technical Support Services:** conducts trainings and other capacity-building activities, information dissemination, technology demonstrations and learning sites development, awards and recognitions, and extension incentivization.

**Philippine Animal Industry Management Information System (PHILAIMIS):** serves as a repository of accurate, reliable, and verified data from various DA livestock offices in order to enable effective planning, quick decision-making, and efficient service geared towards the development of the Philippine livestock and poultry subsectors.

**Other Support Services:** provides veterinary drugs and biologics, policies, capability-building activities, information dissemination, and other initiatives to promote animal health and to prevent and control the spread of animal diseases in the country.

## How to Avail of the DA-NLP's Programs and Services

**STEP 1:** Prepare a letter addressed to the DA-NLP Director stating the actual request and the location of the requesting farm, association, or cooperative.

**STEP 2:** Send your Letter of Intent along with organizational documents at [livestock@mail.da.gov.ph](mailto:livestock@mail.da.gov.ph) or mail to the DA-National Livestock Program, 4/F New Building, Department of Agriculture, Elliptical Road, Diliman, Quezon City 1100.

**STEP 3:** The request shall undergo review for possible funding.

**STEP 4:** The DA-NLP Liaison Officer shall facilitate an endorsement letter for the evaluation and validation of the said request for livelihood and funding assistance received from various legislators, farmers' cooperatives and associations (FCAs), state universities and colleges (SUCs), and DA offices to the concerned DA-Regional Field Offices (RFOs).

*Tinulungan ako ng DA at ng gobyerno na makabangon. Tapos ngayon, dumating naman ang time na ako naman ang tumutulong sa iba para sila ay makabangon.*

**JED B. VALENCIA**

Owner, EVG Farm  
Lipa City, Batangas

*Falling victim to the ASF outbreak in 2019, Jed Valencia sought technical assistance from the DA-NLP and the Lipa City Veterinary Office (CVO). His strict implementation of biosecurity measures and other best practices was recognized by the DA, which granted EVG Farm with a Biosecurity Level 2 status in 2022 and tapped Valencia as a farm-cooperator under the INSPIRE Program.*

# LIVESTOCK ATTACHED AGENCIES

## DA-BUREAU OF ANIMAL INDUSTRY

Institutionalized on January 1, 1930 as per Republic Act No. 3639, the Bureau of Animal Industry (BAI) was placed under the then Department of Agriculture and Natural Resources (DANR) to investigate, study, and report animal pests and diseases, to formulate preventive measures, and to promote the development of the Philippine livestock industries.

Now an attached bureau of the Department of Agriculture (DA), the DA-BAI continues to play a vital role in the formulation of policies, programs, and projects that will effectively boost and bring prosperity to the livestock and poultry subsectors.

# VISION

A premier agency for a vibrant and globally competitive animal industry towards food security by 2030.

# MISSION

To make the animal industry productive, profitable, and sustainable through sound policies, programs, research, and services on animal production, post-harvest, health, and welfare.

 Bureau of Animal Industry Compound  
Visayas Avenue, Diliman, Quezon City 1100

## PROGRAMS AND SERVICES

**Beekeeping Development Program:** promotes the development of the beekeeping industry through the development of the Philippine Apiculture Roadmap and the formulation and enforcement of food safety standards and regulations, among others.

**Contagious Bovine Pleuropneumonia (CBPP) Surveillance:** the first CBPP prevalence study in the Philippines, which formed part of the government's initiatives to apply as a CBPP-free country at the World Organisation for Animal Health (WOAH).

**Philippine Native Animal Development (PNAD) Program:** focuses on the genetic conservation, improvement, and use of Philippine native chicken, Itik-Pinas, native pig, native goat, and native cattle to generate more livelihood and income.

**Multiplier Breeder Loan Program:** helps increase the quantity and quality of the beef cattle, poultry, swine, and small ruminant populations in the country and provides production support to industry stakeholders.

**Unified National Artificial Insemination Program (UNAIP):** provides the strategic direction in the current artificial insemination (AI) efforts for cattle and carabao production, in support to the DA's livestock genetic improvement agenda and harmonizes all national livestock agencies in carrying out efficient and effective livestock breeding programs using AI technology.

**African Horse Sickness (AHS) Surveillance and Reconfirmation of Freedom:** one of the strategies of the government to be declared AHS-free status by the WOAH.

Photo by DA-BAI-NASFPCP

**Peste des petits ruminants (PPR), Lumpy Skin Disease (LSD), Brucellosis:** reconfirmation of freedom from PPR and LSD as well as the conduct of online trainings, technical presentations, and disease situation updates and discussions in partnership with the WOAH.

**Food Safety:** enforces and strengthens the country's food safety regulatory system—specifically focusing on food derived from animals—in compliance to the Republic Act 10611 or Food Safety Act of 2013.

**Cold Examination Facility Agriculture (CEFA):** an ongoing project that will serve as a first-border inspection facility for imported agri-fishery commodities.

**National African Swine Fever Prevention and Control Program (NASFPCP):** partners with LGUs to ensure implementation of the Bantay ASF sa Barangay (BABay ASF) and other initiatives related to ASF surveillance, prevention, and awareness.

**Avian Influenza Protection Program:** partners with LGUs to ensure the implementation of surveillance, disease monitoring, and other activities to prevent the spread of Avian Influenza.

**Electronic Services:** includes accreditation of importers and exporters of animals and animal products, licensing of feed establishments, registration of feed products, issuance of sanitary and phytosanitary import clearances, and more.

### Our Services

**National Veterinary  
Quarantine Services Division**

**Animal Feed and Veterinary  
Drugs Biologics Control  
Division**

**Animal Health and Welfare  
Division**

**Veterinarian**

*With the help of the DA-BAI, the management of our farm became better. They raised our level of understanding of biosecurity which is very vital to our business. Our knowledge and dedication were also enhanced to support management objectives and targets. Our good harvest is a result of everyone's effort and commitment, thanks to the DA-BAI team for their continuous support.*

**LUISA A. VELASCO**  
Prados Verdes Farm  
Nasugbu, Batangas

*Luisa Velasco received technical assistance from the DA-BAI, gaining the technical knowledge and skills to apply Good Animal Husbandry Practices (GAHP) in their broiler chicken farm. Now a GAHP-certified farm, Prados Verdes Farm serves as a model poultry farm which advocates for a Philippine poultry industry that produces quality chickens for local and global markets.*

## DA-NATIONAL DAIRY AUTHORITY

Created through Republic Act No. 7884 or the National Dairy Development Act of 1995, the National Dairy Authority (NDA) shall be the central policy determining and directing body tasked to ensure the accelerated development of the Philippine dairy industry through policy direction and program coordination and implementation.

An attached corporation of the Department of Agriculture (DA), the DA-NDA continues to establish and pursue streamlined, efficient, and sustainable initiatives to achieve “nutrition for all, livelihood for the dairy farmers.”

## VISION

A sustainable and profitable dairy industry that provides safe and quality milk to satisfied customers and generates income for dairy farmers, achieving five percent local milk sufficiency by 2028.

## MISSION

Foster stakeholder confidence and Empower local dairy farmers through Ethical entrepreneurial practices, Leadership in milk quality assurance, Sustainable production, and Good governance thereby ensuring Optimal production, Organizationally-sound frameworks, and Data-driven decisions.

## PROGRAMS AND SERVICES

Photo by DA-NDA

### MAJOR PROGRAM

**The Dairy Industry Development Program (Overall Program):** aims to accelerate the development and growth of the Philippine dairy industry through policy direction, program coordination, and implementation towards the enhanced growth and competitiveness of the industry with the end in view of achieving adequate supply of safe, quality milk and milk products contributing to food security, providing livelihood opportunities and thereby increasing incomes of small rural-based dairy farmers and proper nutrition for local consumers.

Photo by DA-NDA

## **SUB-PROGRAMS**

**Dairy Herd Build-Up Program:** increases local milk production and dairy stocks through the importation and purchase of local born dairy animals, breeding by artificial insemination, upgrading of local animals into dairy breed, application of technologies, and provision of credit facilities and animal health and nutrition services.

**Dairy Enterprise Development Program:** ensures the marketability of locally produced milk and the viability and sustainability of local dairy enterprises by infusing enterprise orientation among dairy producers.

**Milk Feeding Program:** provides milk to community and school-based children at risk of malnutrition as well as the elderly, pregnant women, and lactating mothers at a feeding period of 120/200 days in collaboration with local dairy cooperatives and producers.

**Dairy Regulatory Program:** strengthens the country's dairy safety regulatory system to protect consumers from unsafe and adulterated locally-produced milk, enhance industry and consumer confidence in the dairy regulatory system, achieve economic growth and development by promoting fair trade practices and sound regulatory foundation for domestic distribution, and upgrade the capability of local dairy farmers, consumers, and dairy personnel in ensuring dairy safety.

Photo by DA-NDA

## How to Avail of the DA-NDA's Programs and Services

**STEP 1:** Submit a formal letter of request addressed to the DA-NDA Administrator indicating the nature of the request and other important information about the farm or association.

**STEP 2:** Send your request to or mail to the DA-National Dairy Authority, BAI Compound, Visayas Avenue, Diliman, Quezon City 1100.

**STEP 3:** The request will undergo an evaluation by the concerned DA-NDA unit.

**STEP 4:** Once approved, the requested service will be provided to the requesting farm or association.

*Visit [nda.da.gov.ph](http://nda.da.gov.ph) to access the Citizen's Charter containing the full list of DA-NDA services along with the step-by-step process on how to avail each service.*

Photo by DA-NDA

*Nagpapasalamat po ako sa Department of Agriculture kasi binibigyan niyo po kami ng oportunidad para maipagpatuloy po namin ang amin pong pagatasang ito, nabibigyan po kami ng tulong-pinansyal. Ang National Dairy Authority po ay umaagapay sa amin para maipagpatuloy pa po namin ang aming pagbabaka at paggagatasan.*

### **BABY KRISTINE PANALIGAN-HASEGAWA**

Owner, Baby Kristine Hasegawa Dairy Farm  
Sariaya, Quezon

*Baby Kristine Panaligan-Hasegawa received animal health services, agricultural equipment and machineries, capacity-building opportunities, market assistance, and credit services from the DA-NDA. These helped boost her farm's production to at most 50 liters of cow's milk daily, making it the top producer of raw milk within the Palcon Dairy Multipurpose Cooperative, the highest dairy-producing cooperative in Southern Luzon. She also received the Excellent Performance in Ruminant Farm (Small-Scale Category) award during the Livestock Philippines Recognition in 2023.*

# DA-NATIONAL MEAT INSPECTION SERVICE

The National Meat Inspection Service (NMIS) is a specialized regulatory agency attached to the Department of Agriculture (DA) that serves as the country's sole national controlling and competent authority on all matters pertaining to meat inspection and hygiene both for locally produced and imported meat. It was created under Presidential Decree No. 7 as National Meat Inspection Commission and renamed as National Meat Inspection Service under the Republic Act No. 9296, otherwise known as the Meat Inspection Code of the Philippines, as amended by the Republic Act No. 10536.

The DA-NMIS is tasked to formulate, promulgate, and implement laws, policies, programs, and projects governing the post-harvest flow of meat to protect the interest and welfare of consumers and to promote the development of the livestock and meat industry.

## VISION

Ensuring safe and quality meat for a healthy Philippines.

## MISSION

Providing modernized meat inspection service using relevant technologies to protect the consuming public while promoting the livestock and poultry sector with government and industry partners to ensure adequate supply of meat.

 No. 4 Visayas Avenue, Barangay Vasra  
Quezon City 1128

 (+632) 8 924 7980

## PROGRAMS AND SERVICES

Photo by DA-NMIS

**Accreditation and Registration:** facilitates the registration and licensing of meat establishments, rendering facilities, and meat transport vehicles, as well as the certification to ascertain compliance to national standards.

**Laboratory Testing and Analysis:** provides analytical services to detect physical, biological, and chemical contaminants in meat and meat products.

**License to Import:** evaluates, verifies, and inspects meat establishments and documentary requirements of applicants.

**Meat Standard Development and Consumer Protection:** provides meat safety training to LGUs and assists customers on the resolution of related complaints.

Photo by DA-NMIS

Photo by DA-NMIS

Photo by DA-NMIS

**Plant Operation Standards and Monitoring:** inspects and certifies meat and meat products and provides technical supervision to LGUs.

**Good Manufacturing Practices (GMP) and Standard Sanitation Operating Procedures (SSOP) Program:** primary programs that have to be practiced in all accredited meat establishments and are prerequisites to the HACCP Program.

**Hazard Analysis and Critical Control Point (HACCP) Program:** an internationally recognized system which is science-based and systematic and identifies hazards and measures for their control to ensure food safety.

**Meat Establishment Improvement Program (MEIP):** provides technical and financial assistance to LGUs in upgrading their slaughter facilities to “AA” accreditation standards.

Photo by DA-NMIS

## How to Avail of the DA-NMIS' Program and Services

The DA-NMIS accepts manual and online applications for its programs and services.

Forms are downloadable at [nmis.gov.ph/forms/application-form](http://nmis.gov.ph/forms/application-form).

A step-by-step guide for every program/service offered is also available by accessing the Services tab at the official DA-NMIS website, [nmis.gov.ph](http://nmis.gov.ph).

## DA-PHILIPPINE CARABAO CENTER

The Philippine Carabao Center (PCC), an attached agency of the Department of Agriculture (DA), was created by virtue of Republic Act No. 7307 in 1992 and became operational in 1993. It is mandated to conserve, propagate, and promote the carabao as a source of milk, meat, draft power, and hide to benefit the rural farmers.

The DA-PCC has a network of 12 regional centers that are strategically located in various parts of the country. By virtue of DA Administrative Order No. 9, series of 2008, it also pursues an additional mandate as the national lead agency for livestock biotechnology research and development in the Department. The DA-PCC also hosts the DA-Livestock Biotechnology Center, which became operational on August 6, 2014, and the National Livestock Cryobank, a repository for germplasm and biological samples from diverse livestock species.

# VISION

A premier research and development institution propelling sustainable growth of the livestock industry.

# MISSION

Improve the general well-being and competitiveness of the livestock industry stakeholders through animal biotechnology and technology development, technology dissemination and knowledge resource management, active private sector participation, livestock-based enterprises, and policy reforms to sustain development of livestock enterprises, thus ensuring socio-economic empowerment for nation building.

## PROGRAMS AND SERVICES

Photo by DA-PCC

**Genetic Improvement:** oversees the gene pool for Philippine Swamp Buffalo, in situ conservation and propagation of Native Carabaos, gene pool for Riverine Buffalo, and intensified upgrading of carabaos to conserve existing local germplasm.

**Enterprise Development:** maximizes productivity and profitability in the Philippine carabao industry through cooperative development, market development, access to credit, and training of technicians and farmers.

**Research for Development:** focuses on breeding and genetics, biotechnology, nutrition and forage/pasture, animal health, reproductive physiology, management, product development, socio-economics, and policy.

**Artificial Insemination:** trains Village-based Artificial Insemination Technicians (VBAITs) to provide artificial insemination services in the community with a fee.

**Bull Entrustment Program:** loans out purebred dairy-type bulls to qualified farmers for natural mating in areas where artificial insemination services are limited and not readily available.

**Frozen Buffalo Semen Distribution:** produces and processes frozen semen from genetically superior sires or bulls for artificial insemination.

**Provision of Superior Breeding Animals:** provided only on a case-to-case and "first come, first served" basis.

**Dairy Buffalo Module:** entrusts purebred dairy buffaloes to qualified farmer-trustees, families, company, corporation, cooperative, or entrepreneurs through either modified paiwi or the Dairy Buffalo Multiplier Farm (DBMF) scheme.

**Technical Assistance and Extension:** provides free technical assistance related to animal reproduction, animal nutrition, animal health, forage production and improved feeding system, cooperative development, and dairy production and processing.

**Analysis of Milk Samples:** provides service for analysis of milk components mainly for dairy herds participating in milk recording and performance testing.

**Nutrition Laboratory Services:** assesses the nutritive value of feedstuffs and other related samples to address nutritional problems and nutrient deficiencies of livestock.

**Biosafety and Environment Laboratory:** helps maintain a disease-free environment and conducts collaborative researches and related assistance.

**Molecular Genetics Laboratory:** provides genetic testing services for livestock such as screening for genetic defects, parentage verification, traceability and identification of individual animals carrying favorable alleles of genes for production traits.

**Reproduction and Physiology Laboratory:** provides production support services such as ovarian examination, fixed time artificial insemination (FTAI), pregnancy diagnosis via ultrasound and pregnancy associated glycoproteins (lab test), semen analysis, gamete and embryo cryopreservation.

**Product Development and Innovation Laboratory:** focuses on the research, development, and innovation of milk and other carabao-based products for market promotions and development of sustainable livelihood opportunities for the dairy farming communities.

**National Livestock Cryobank Facility:** supports research for development works on ex-situ cryoconservation of animal genetic resources from diverse livestock species and provides research that are available to farmers, livestock breeders, and other clients seeking quality animal genetics in support of the animal production system.

**Information and Visitors Assistance:** disseminates relevant knowledge products and information about its programs and services using various media.

**Marketing Assistance:** assists on the establishment of dairy farming businesses and other related enterprises, branding, capacity-building, data provision, consultations, and other services.

Photo by DA-PCC

## How to Avail of the DA-PCC'S Program and Services

**STEP 1:** Prepare a letter of request addressed to the DA-PCC Executive Director indicating the nature of the request and other important information about the farm or association.

**STEP 2:** Send your request to [oed@pcc.gov.ph](mailto:oed@pcc.gov.ph) or mail to the DA-Philippine Carabao Center National Headquarters and Gene Pool, Science City of Muñoz, Nueva Ecija 3120.

**STEP 3:** The request will undergo an evaluation by the concerned DA-PCC unit.

**STEP 4:** Once approved, the requested service will be provided to the requesting farm or association.

*Visit [pcc.gov.ph](http://pcc.gov.ph) to access the Citizen's Charter containing the full list of DA-PCC services along with the step-by-step process on how to avail each service.*

## DA-ATI PROGRAMS AND SERVICES

**Training and Scholarship:** strengthens competency and competitiveness through capability building.

**Demonstrations:** showcases modeling technologies, best agriculture and fisheries extension practices, and innovations for improved productivity and profitability.

**Advisory:** empowers farmers and fishers through advisory services.

**Information Services:** enhances agriculture and fisheries extension knowledge products and services for dissemination through various platforms.

**Governance:** improves enabling environment and governance for agriculture and fisheries extension.

## How to Avail of the DA-ATI's Programs and Services

**STEP 1:** Prepare a letter of request addressed to the DA-ATI Director indicating the nature of the request and other important information about the farm or association.

**STEP 2:** Send your request via mail or electronic mail.

**STEP 3:** The request will undergo an evaluation by the concerned DA-ATI unit.

**STEP 4:** Once approved, the requested service will be provided to the requesting farm or association.

*For accreditation guidelines and requirements, e-Extension services, list of training sessions and online courses, and other relevant information, visit the official website ([ati.da.gov.ph](http://ati.da.gov.ph)) and Facebook page ([facebook.com/ATInteractive](https://facebook.com/ATInteractive)) of the DA-ATI.*

## DA-ATI-ITCPH PROGRAMS AND SERVICES

Photo by DA-ATI-ITCPH

**Regular Training Programs** on pig husbandry and related disciplines such as artificial insemination, waste management, meat processing, and animal feed milling technology.

**Tailor-Made Courses** to support the training needs of the private sector.

**E-Learning Courses** for those who cannot be physically present to attend the training at the DA-ATI-ITCPH.

**Off-Center Courses** to suit the technology needs of the various local government units and farmers' cooperatives or organizations.

**Milk Feeding Activity** for selected schools in Batangas to emphasize the relevance of livestock farming in the country's economic development and to promote milk as a nutritious and healthy staple food for children.

**Kiddie Farm Tours** covering all areas and units of the Center's farm to promote pig production to all ages as a potential source of livelihood.

**ITCPH Pig Pen Calculator** ([atiitcph.com/materials/pig-pen-calculator](http://atiitcph.com/materials/pig-pen-calculator)) to help interested pig farmers in preparing their own pig farm design.

**Knowledge Products** to provide up-to-date information on the best practices, technologies, and innovations for an enhanced swine-based agricultural enterprise.

## How to Avail of the DA-ATI-ITCPH's Program and Services

**STEP 1:** Prepare a letter of request addressed to the DA-ATI-ITCPH Center Director indicating the nature of the request and other important information about the farm or association.

**STEP 2:** Send your request via mail or electronic mail.

**STEP 3:** The request will undergo an evaluation by the concerned DA-ATI-ITCPH unit.

**STEP 4:** Once approved, the requested service will be provided to the requesting farm or association.

*Napakalaking kaligayahan para sa akin ang piggery. Kaya sana huwag kayong matatakot na magsimula kahit may ASF kasi lahat naman ng hanapbuhay, mahirap sa umpisa. Pero nandiyan ang ATI-ITCPH para umagapay. At kapag nagamay niyo na, naisapuso niyo na, at nakikita niyo na ang goals ninyo, mas mamahalin ninyo ang hanapbuhay na ito.*

## **VIRGINIA G. RONQUILLO**

Owner, AJR Farm

Lucena, Quezon

*Virginia Ronquillo enrolled in various DA-ATI and ITCPH courses which elevated her from being an ordinary citizen to a successful hog raiser. Her accumulated knowledge from the said courses helped maintain her farm's ASF-free status. She is also a celebrated woman farmer-leader, stepping into leadership roles such as the Chairperson of the Highly Urbanized City Agricultural and Fishery Council (HUCAFC) in Lucena City and the Chairperson of Livestock and Poultry in Region IV-A CALABARZON.*
